

MORE PINKHAM CURES

Added to the Long List due to This Famous Remedy.

Orono, Me.—"I was simply a nervous wreck. I could not walk across the floor without my heart fluttering and I could not even receive a letter. Every month I had such a bearing down sensation, as if the lower parts would fall out. Lydia E. Pinkham's Vegetable Compound has done my nerves a great deal of good and has also relieved the bearing down. I recommended it to some friends and two of them have been greatly benefited by it."—Mrs. MAR MCKNIGHT, Orono, Me.

Another Grateful Woman. St. Louis, Mo.—"I was bothered terribly with a female weakness and had backache, bearing down pains and pains in lower parts. I began taking Lydia E. Pinkham's Vegetable Compound regularly and used the Sanative Wash and now I have no more troubles that way."—Mrs. AL. HANCOCK, 5722 Prescott Ave., St. Louis, Mo.

Because your case is a difficult one, doctors having done you no good, do not continue to suffer without giving Lydia E. Pinkham's Vegetable Compound a trial. It surely has cured many cases of female ills, such as inflammation, ulceration, displacements, fibroid tumors, irregularities, periodic pains, backache, that bearing-down feeling, indigestion, dizziness, and nervous prostration. It costs but a trifle to try it, and the result is worth millions to many suffering women.

WITNESSES MUST SPEAK LOUDER

Yesterday's Proceedings in Mitchell Defense Dragged Slowly—State May Bring Out Some New Evidence

New Haven, March 17.—In order to bring the trial of Sophie Kriehnam and Joe Mitchell for the killing of Bronislaw Kulvinskis in Union City last September to a speedy conclusion, Judge Williams informed counsel and jury today that from now on court would convene at nine-thirty in the morning and adjourn at five-thirty in the afternoon. The extra hour gained will tend to make up for the time lost during the recesses of the morning and afternoon sessions.

Personal Friends of Accused Man. Today's proceedings dragged along slowly, as counsel for Mitchell put on witness after witness, who testified to having seen Mitchell at this or that time on Friday and Saturday, the 17th and 18th of September last. The witnesses, all of whom lived in Wallingford, were personal friends of the accused man and had known him from three to seven years. There was a sameness about the evidence given that verged on the monotonous, and there were but one or two occasions that any of the evidence given was new.

Answers Moved Gallery to Laughter. Once when a witness gave his answers in a voice so low that they could hardly be heard Judge Williams asked him if there was anything the matter with his lungs. The same witness was told later by the court that he must understand that he had to speak loudly.

The answer moved the general public in the gallery to laughter, which brought forth a reprimand from the court, informing them that "if you

cannot restrain yourselves you will leave the building. This is not a place of amusement."

"I Don't Remember," 28 Times. As was the case yesterday, today's testimony of witnesses was punctuated with that now-old and tiresome "I don't remember." One witness in particular, in the short time that he was on the stand, gave the "I don't remember" answer to his cross-examiners twenty-six times.

Kulvinskis Identified Mitchell. Dr. M. J. Lawlor, who was put on the stand early in the afternoon, testified that when Mitchell was brought before Kulvinskis in the hospital at Wallingford, that the latter identified him as the man who had shot him, and that Kulvinskis, when asked how he knew it, was Mitchell, had said: "Sophie told me she would bring Mitchell back with her and shoot me, and I heard a man's voice at the time I was shot the second time."

State May Have New Evidence. That there may be some new evidence brought out by the state was shown today when August Volavick, a particular friend of Mitchell's, a saloon keeper in Wallingford, testified that he had received an urgent telephone message for Mitchell on Saturday afternoon, the 18th. The message came from Union City, but what the nature of the message was, was not brought out by either the state or the defense.

The Mitchell defense will continue their testimony at the opening of court in the morning.

THIS FACTORY TURNS OUT SPURIOUS PAINTINGS Which Are Sold as Genuine Martins, Innesses, Wyants and Others.

New York, March 17.—How two canvases left the store room of William Clausen, an art dealer, innocent of paint, and came back in a matter of weeks as Homer Martins, was told on the witness stand today by Otto J. Karch, formerly in the employ of Clausen and now salesman for another Fifth avenue picture dealer. Clausen is being sued by William T. Evans to recover \$3,500 which he paid to Clausen for two pictures now said by experts to be spurious.

The testimony took a sensational turn today when Karch, in the most matter of fact manner, testified that Clausen carried on a regular factory of Martins and Innesses, Wyants and others of that school of American landscape paintings. Whenever a new one came into the shop, he testified, "the employee would snicker. There goes another live one."

Some of the canvases which came in, said Karch, were so small that he could smell the paint on them. It took six months or more for an oil painting to dry out. Two of these freshly painted canvases he identified as the "Near Newport" and the "Normandie Bridge" sold to Mr. Evans. On another occasion he testified that a genuine Wyant, sent to Clausen to be cleaned, was sold to another customer and a reproduction freshly painted was substituted in return. When the paint looked too outrageously fresh, said Karch, Clausen used to rub sweepings from the floor on the canvases to give them the proper atmosphere of age.

SUGAR PROFITS, SO COMPANIES REPORT, ALL USED UP. Big Deficit as Result of Settlement of Government and Other Suits.

New York, March 17.—Settling governments suits based on the underweighing frauds cost the American Sugar Refining Company more money than it could make up in the process of ordinary business, and as a result the company's financial report for 1909 shows a deficit of \$1,395,000. The sum paid in settlement of the government suits and the litigation instituted by the receiver of the Pennsylvania Sugar Refining Company was \$4,135,486.

Satisfaction of the government's claim cost \$2,137,486, and of the Pennsylvania claim \$2,000,000. The returns on the year's business in the annual report show that net profits rose to the highest amount ever recorded, \$10,823,000, as against \$8,562,000 in 1908, and \$8,723,000 in 1907. The increase over the preceding year was equal to 66 per cent, yet even that gain was more than wiped out.

As a consequence of the two large payments, the accumulated surplus of the company was reduced to \$21,301,000. Two years ago it was \$25,576,000, but owing to appropriations for additions and betterments in 1908 there was a reduction then of \$2,879,000. Last year was, therefore, the second year in which the company's profit and loss surplus was cut into.

DESERTER PARDONED BY TAFT. Love for Filipino Girl Made Baker a Traitor to His Flag.

Vallejo, Cal., March 17.—F. M. Baker, formerly a non-commissioned officer in the Marine corps, who was sentenced to life imprisonment at San Quentin in 1900 for having deserted his country's flag for a commission in Aguinaldo's army, has been dishonorably discharged from the navy at Mare Island. He has started for Pittsburg, the home of his father, who was instrumental in having President Taft pardon the young man. Love for a Filipino girl is said to have caused Baker's desertion.

Prediction That the Grand Trunk Will Enter Rhode Island.

Providence, March 17.—The opinion that the Grand Trunk railway will secure its desired entrance into Rhode Island by the consent of the present general assembly was confidently expressed today by Chairman H. N. Hassard of the house committee on corporations. This committee has the proposed charter under consideration.

Mr. Hassard said: "We will fix the Grand Trunk railway charter all right so the company can set in here. The committee will not be able to give the charter any study this week, but we will go to work upon it next week."

NOTABLE SPEECH AT TROY ST. PATRICK'S DAY DINNER What New York Needs is More Honesty, Not More Investigations.

Troy, N. Y., March 17.—Recent attempts to reorganize the republican party in New York state were humbug: the Aldis-Conger investigation at Albany is an expensive and almost useless undertaking for which "fifty cents worth of whitewash" would be a suitable substitute; and William J. Gaynor, mayor of New York, is a real reformer with a purpose.

These views were expressed in a speech here tonight at St. Patrick's day dinner of the local Sons of St. Patrick, by W. O. Howland, a state supreme court justice, and a republican. Although he did not refer by name to the incidents and conditions which he condemned, there was no mistaking his meaning, nor his sarcastic reference to the motives which inspired Senator Elihu Root's recent telegram to the organization republicans at Albany concerning the Cobbinan contest for president pro tem. of the senate.

Professional reformers, the justice denounced as "rapid salesmen, spineless liars, and scoundrels, sprung from no race and owned by no race." Incidentally, he said New York has too many laws and that what is needed is "more honesty, not more investigations."

NEW YORK ST. PATRICK'S DAY. A BAD ONE WEATHERWISE. Nevertheless 50,000 Paradees Tramped Fifth Avenue in Slush.

New York, March 17.—There was no green for St. Patrick here today, save in the buttonholes of those who love to freshen his name. The parks and lawns were white with snow and the skies were drab. St. Patrick's day is proverbial in New York for bad weather, but until the sun broke through the clouds late this day, the way was one of the worst of his anniversaries remembered.

Nevertheless, fifty thousand paradees, brave in their uniforms and banners, dared the snow flurries and wet feet to tramp Fifth avenue in the slush. Many Irish societies were in line. The Sixty-ninth regiment led the parade. A pontifical high mass was celebrated at St. Patrick's cathedral earlier in the day with Archbishop Farley as the celebrant. When the great cathedral was crowded to the doors, the life and drum corps of the Irish volunteers was heard shrilling outside and Archbishop Farley met them at the entrance. To the tune of Hibernia's Champion Saint all the volunteers followed the archbishop down the center aisle toward the altar.

The Rev. Patrick Daly, dean of the cathedral, who preached the sermon, announced no text, because he said "on this great day there is but one thing for us to think about, and that is St. Patrick."

"People laugh at us," he continued, "because we say Ireland ever had a golden age; yet there isn't a man in our great armies who doesn't know military tactics came from St. Patrick's people. Irishmen built the military roads of the great Roman empire."

CONSTITUTIONALITY OF THE CORPORATION TAX.

U. S. Supreme Court to Listen to Argument One More Day.

Washington, March 17.—For four hours today the supreme court of the United States listened to conflicting arguments on the constitutionality of the corporation tax provisions of the Payne-Aldrich tariff act. After another day the court will take the statute under its consideration with a view to arriving at a decision.

Constitutional lawyers from various sections of the country took part in the argument of the day. They were connected with the fifteen cases in which the validity of the tax is attacked and which had been consolidated into one case for the purpose of hearing. In each of these suits stockholders or policyholders had brought action to prevent corporations from paying the tax. Without exception the lower courts held the tax constitutional and dismissed the suits.

The Home Life Insurance company and the Coney Island and Brooklyn Railroad company had counsel present to argue that the corporation tax themselves are required to pay the tax.

BATHS IN THE SCHOOLS. Health Officer Elmes Thinks That Children Should Be Taught to Keep Clean.

Health Officer Elmes believes that the schools in Derby should be equipped with bath rooms and that some of the pupils should be given baths regularly. He says that the best schools in the country now are built with bath rooms in them and have nurses in charge who regularly give scrubbing to the children who need them. He has found in his examinations as medical inspector that quite a number of the children in the lower grades in the Derby schools would be very decidedly improved by a good bath. Not only would the children be physically better off, but they would be given a practical lesson in the art of keeping clean, which would be a benefit to them. He thinks that if the younger pupils are made to bathe once a week they would as they grow up acquire the habit which would cling to them and would work great changes.

He is ready to ask the city to put baths into the schools, but he has learned that the city has not money to spend for this purpose this year, and has not asked that it be done. But he believes that the city should once prevailed there would be such a change that the city would give it up. Last year in the South Manchester schools 14,000 baths were given pupils.

He believes that the work here would not require a nurse to look after it, but could be done through the District Nurse association.—Ansonia Sentinel.

TROLLEY TO BEACHES. Insistence of One Property Owner to Secure Double Worth of Property May Balk the Project.

The plan of the Connecticut company to run its tracks to Laurel and Myrtle beaches, which has been before the legislature for some time, seems likely to be halted for a time at least by the obstinacy of the owner of a single piece of property along the proposed route. The right of way, which is over private property the entire distance, has been secured by the company, but the owner of a single piece of property which the owner refuses to sell at anywhere the figure offered. This owner is said to ask about \$5,000 for a lot which real estate dealers say would be dear at one-half of its figure, but it is said that he plans to build the line can be carried out. It is proposed to deviate from the present line in the town of Milford, a short distance east of Washington bridge, carry the line almost directly south to the shore, and then turn eastward along the beach and rejoin the present line near Walnut beach.

LEADS CITY. Perhaps Diocese—Wonderful Achievements of Polish Parish in New Britain.

The New Britain Herald says: The annual report of the Church of the Sacred Heart of Jesus, which was read Sunday by the pastor, Rev. Lucyan Bojnowski, shows that this church leads the city in the matter of finances and, it is believed, also leads the Hartford diocese. The total receipts for the year were \$75,261.54, \$34,925 of which is borrowed from a bank, and the disbursements were \$42,336.54. The new school, which is the most modern in its equipment of any in the city and is equalled by few in the state, is now complete. To date, the handsome sum of \$109,179.47 has been expended on this school. It is expected that it will take a few thousand dollars to complete the school and fully equip it.

In addition to the class rooms, recitation rooms, offices, etc., there is a large assembly hall, a fine gymnasium with swimming pool, and many other modern conveniences which go to make this one of the finest parochial schools in the state.

The census of the parish shows that there are 884 families, 1,782 children, 1,020 single men, 500 girls, total number of souls 5,646. During the past year Father Bojnowski officiated at 71 funerals, 117 weddings and baptized 324 children. He estimates the Polish population of the city at 3,500.
